Broadway Limited Locomotive Works ACF Type 21 Tank Car Pack for Microsoft(r) Train Simulator.
Copyright (c)2008-2009 Broadway Limited Locomotive Works and Thomas J Pearce. All Rights Reserved.

Thank You Notice:

First off, we at Broadway Limited Locomotive Works would like to thank you for your purchase of the American Car and Foundry Type 21, 8000 Gallon Tank Car pack. it is in high hopes that we wish you many hours of enjoyment with this package. Please make sure you also take the time to examine the PDF Guide we have included, as it includes a short history, details and pictures of the package, and much more.

To Install this Package:

1. Open the Archive with Winzip

2. Run the installer

3. Change the directory(only as needed) to make sure that this add-on installs directly to where your copy of MSTS is found at.

4. once done, open one of the ACF Type 21's in either Shapeviewer, or the simulator. Any problem your model may have had with a missing "COUPLER.ace" should have gone away.
