

BLLW PB70 Combine Pack Readme

Built in the Late 1920's by the Pennsylvania Railroad's own Juniata these cars were used on many Secondary and local trains until the late 60's. Today, a few examples remain in varying states of condition. Some are restored, some about worn out

This package includes Five cars: Four in Postwar Livery, and one in the late 50's "keystone" Livery. All cars in this pack display their car type, owner, number and scheme in the naming line.

Installation

1. Run BLLW PB70 Pack.exe
2. Make sure the installer is correctly pointed to your MSTs TRAINSET folder (Change accordingly if your Directory is not in the default place...)
3. Create a consist or consists to use any of the six cars, and enjoy.
